São Paulo State University (UNESP)  
Grant [#2017/09676-8](#)  
**Title:** Effect of Landscape Modifications and Climate Changes on the Persistence of Amphibians in the Atlantic Forest  
**Aim:** (1) to present an assessment of the surveys of the amphibian communities for the Atlantic Forest, their composition and distribution; (2) to investigate how habitat loss and fragmentation on the regional scale can affect the current persistence of amphibians from different reproductive guilds; and (3) to investigate how climate change may affect the future persistence of amphibians of the genus *Brachycephalus*, considered highly sensitive to these climatic changes

2013 | 2015 ● **Scientific Initiation Scholarship**  
São Paulo Research Foundation (FAPESP) (BRL 10,539.87)  Rio Claro, SP, Brazil  
São Paulo State University (UNESP)  
Grant [#2013/02883-7](#)  
**Title:** Effect of fragmentation on the persistence of anuran amphibians (Amphibia: Anura) within the Atlantic Forest  
**Aim:** (1) model the potential distribution based on the environmental suitability of the species of interest; (2) identify landscapes with high environmental suitability and surveys with high sampling effort in order to characterize the regional anurofauna; and (3) evaluate the relative contribution of landscape indices (percentage of forest cover, connectivity, relief and urban proximity) to the persistence of species using model selection for multiple competing hypotheses based on Akaike information theory

Between 2018 and 2019, I composed a group of analysts to assess the impact of the Fundão dam rupture in Mariana/MG (Brazil) on the Rio Doce Basin, where I compiled land cover information and built models for the distribution of terrestrial and aquatic species to several scenarios

Since my formation I develop teaching activities, initially as a monitor. From the master's degree, I help and minister undergraduate and graduate courses, especially those related to Space Ecology, Species Distribution Models, Statistical Models in Ecology and Geoprocessing.
